

Star of The Month Policy

Purpose

The purpose of the Star of the Month program is to recognize and reward employees who demonstrate exceptional performance, positive attitude, teamwork, and commitment to company values.

Nomination Criteria

1. The 3-Day Rule (Carry-Over)

If a major documented achievement (including certification) occurs in the last 3 business days of the month, it must be nominated for the following month.

2. The 5-Pillar Impact is Mandatory

The contribution must demonstrate above-and-beyond effort in ONE of these five pillars: a) Business Impact, b) Innovation/Automation, c) Mentorship, or d) Professional Growth & Architectural Impact. e) For Goals if anyone is receiving above Exceed Expectation.

3. Certification & Big Achievement Rule

Achieving a high-value, relevant certification (e.g., AWS Pro, PMP, CISSP) or resolving a major architectural debt automatically meets the 'Professional Growth & Architectural Impact' threshold.

4. BAU ≠ SOTM

High-quality Business As Usual (BAU) work still qualifies for a Team Shout-out, not individual SOTM. Reserve SOTM for achievements that hit one of the five pillars.

5. The PCN is Mandatory Evidence

For all cross-functional contributions, the Project Contribution Note (PCN) from the Project Manager is the primary, mandatory evidence. No PCN, no nomination.

6. Always Quantify the Result

Every nomination must answer the question: "What was the measurable outcome?" (e.g., Reduced latency by 15%, Saved 20 team hours). For certification, the impact is the acquired high-level skill.

Star of The Month Policy

7. Link the Evidence (Active Link)

A verified, active link to the supporting evidence (PCN, certification document, metric screenshot) must be provided. Inactive links mean automatic disqualification.

8. Strict Submission Deadline

Adhere strictly to the monthly deadline. The Nomination Framework must be complete and submitted on time; late submissions will not be reviewed.

9. Personalize & Detail the Win

When a team member wins, the Team Owner must hold a personal 1:1, explicitly referencing the Quantifiable Result and the Impact Pillar achieved.

10. SOTM Rules Guide Development

Use the SOTM rules as a development tool in Monthly Feedback. If a contribution fell short, explain exactly what quantifiable, above-and-beyond action (in one of the 5 Pillars) is needed next time.

1. Award / Reward Details

- **Cash Reward:** ₹500
- **Appreciation Certificate will be given**
- **Company Tree Board:**

Star of The Month Policy

3. Selection and Review Process

- **Nomination Process:**
 - Nominations will be submitted by Team Owners
- **Review Mechanism:**
 - A system workflow (CloveHR) should ensure that:
 - Any nomination made outside of Team Owners must require approval from the respective manager
 - HR will be responsible for reviewing nominations
- **Final Selection:**
 - The final winner will be decided by the HR team after thorough evaluation of all nominations

4. Definition of Terms

- **Project Contribution Note (PCN):**
 - Represents contributions that go above and beyond expectations-**Town Hall Team Update**
 - Based on consolidated feedback from the Line Manager (PM) and Direct Manager
- **Team Shout-out:**
 - Generic shout-outs will not be considered for evaluation

5. Frequency and Quotas

- Quotas or limits are defined per team or department - **As per Annual Event**
